PROFILE SUMMARY

Software Developer experienced in building responsive web applications, reusable UI components, and REST APIs using React.js, Next.js, Node.js, Express.js, Python, and Django, with MongoDB and PostgreSQL for data storage. Skilled in full-stack development, authentication, payment integration, debugging, and performance optimization, with a strong focus on clean, maintainable code.

TECHNICAL SKILLS

Programming Languages: JavaScript, Python, SQL

Frontend Development: React.js, Next.js, HTML5, CSS3, TypeScript, Responsive Web Design

Backend Development: Node.js, Express.js, Django, REST APIs

Databases: MongoDB, PostgreSQL

Development: Full-Stack Development, API Integration, CRUD Operations, Authentication, Authorization, Payment Integration, Database Integration, Debugging, Software Testing, Responsive UI Development

Version Control: Git, GitHub

Deployment: Vercel, Render

Tools: VS Code, Postman, npm

AI Development Tools: ChatGPT, Claude AI, Codex

EXPERIENCE

MCM BPO Pvt. Ltd. (Software Developer)

December 2025 – July 2026

- Developed reusable React.js frontend components and integrated REST APIs for scalable and maintainable web applications.
- Designed and developed responsive pages for the Twiching communication platform, including Team Chat, SMS/MMS, HD Video Meetings, and Voice Communication features using React.js.
- Implemented responsive and user-friendly interfaces with cross-browser compatibility and consistent layouts across desktop, tablet, and mobile devices.
- Collaborated with developers and designers to implement pixel-perfect UI designs, improve user experience, and convert business requirements into functional web interfaces.
- Integrated REST APIs with frontend applications to retrieve, process, and display dynamic application data.
- Worked with Python, Django, SQL, and frontend technologies to develop and maintain internal business applications.
- Implemented CRUD operations, database integration, API handling, debugging, and feature enhancements for internal applications.

PROJECTS

ShopNow – Full-Stack E-Commerce Platform

React.js | Node.js | Express.js | MongoDB

Live Demo: ShopNow E-Commerce

- Developed and deployed a full-stack e-commerce platform using React.js, Node.js, Express.js, and MongoDB with responsive interfaces for desktop, tablet, and mobile devices.
- Implemented secure user registration, login, authentication, authorization, and protected application routes.
- Developed product browsing, product details, search, category filtering, featured products, and dynamic product listing functionality.
- Implemented shopping cart and wishlist functionality with quantity management, price calculation, and persistent user data.
- Developed a complete checkout workflow including shipping address, order summary, tax calculation, shipping charges, and total price calculation.
- Integrated Razorpay payment gateway for online payment processing and implemented backend payment verification.
- Implemented order creation, order history, order details, order status tracking, shipping information, payment information, and order management.
- Built REST APIs using Node.js and Express.js for authentication, products, users, cart, orders, payments, and administrative operations.
- Deployed the frontend on Vercel and backend on Render for production access and testing.

Issue Tracker Dashboard

Python | Django | SQLite | JavaScript

Live Demo: Issue Tracker Dashboard

- Developed a centralized Issue Tracker Dashboard using Python and Django to manage tasks, issues, assignments, and workflow progress.
- Implemented Excel and CSV upload functionality for bulk data import and database synchronization.
- Built issue creation, assignment, status tracking, search, filtering, and workflow monitoring modules.
- Developed backend functionality using Django for business logic, database operations, and application workflows.
- Integrated APIs and database functionality to support dynamic issue tracking and application features.

- Designed responsive dashboard interfaces using HTML5, CSS3, and JavaScript.
- Implemented reporting and dashboard features to monitor issue trends, project status, and workflow progress.
- Performed debugging, software testing, data validation, and feature enhancement to improve application reliability.
- Deployed the application on Render for production access and testing.

EDUCATION

B.Sc. Information Technology	2025
KES Shroff College CGPA: 8.41	
Higher Secondary Certificate (HSC)	2022
Vivek College of Commerce Percentage: 77%	
Secondary School Certificate (SSC)	2020
Anudatt Vidyalaya & Junior College Percentage: 78.60%	

CERTIFICATIONS

- Data Analytics using Excel
- Ethical Hacking Fundamentals
- Introduction to Artificial Intelligence (AI)

SOFT SKILLS

Problem Solving | Analytical Thinking | Team Collaboration | Communication | Time Management | Quick Learner
