Profile Summary

Highly motivated B.Sc. IT student with strong backend engineering and MERN stack development skills. Experienced in building dynamic web applications, REST APIs, and database integration. Skilled in SQL and Python. Passionate about scalable systems, problem-solving, and learning emerging technologies.

Experience

Software Developer

MCM BPO PVT LTD | Dec 2025 – july 2026

- Built a Django-based Lead Management System to streamline storage and processing of business leads.
- Implemented data cleaning pipelines, validation workflows, and database optimizations to improve data quality and retrieval efficiency.
- Worked with CSV data handling, structured data storage, and admin panel enhancements for better lead management.
- Participated in the end-to-end development, maintenance, and optimization of web applications using Next.js, React.js, JavaScript, Python, and modern web technologies. itemize

Education

B.Sc. Information Technology	2025
KES Shroff College, Kandivali	CGPA: 8.41
12th HSC Board	2022
Vivek College of Commerce	77.00%
10th SSC Board	2020
Anudatt Vidyalaya & Jr College, Kandivali East, Mumbai	78.60%

Technical Skills

Languages: Python, JavaScript, SQL
Frontend: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap
Backend: Node.js, Express.js, Django
Database: PostgreSQL, MySQL, MongoDB
Tools: VS Code, Postman, Git, GitHub

Projects

Job Portal Application	MERN, JWT, Cloudinary
– Built full-stack job portal with MongoDB, Express.js, React.js, Node.js. – Implemented secure authentication using JWT and bcrypt (login/registration). – Role-based access for job seekers and employers with responsive Bootstrap UI. – Enabled job posting, filtering, application tracking, and resume/profile upload via Cloudinary.	
Student Record System	Python + SQL
– Developed database-driven system for managing student information. – Executed CRUD operations using SQL for structured data handling. – Increased data retrieval efficiency through query optimization techniques.	

Certificates

- Data Analytics using Excel (Data Cleaning, Visualization, Reporting)
- Ethical Hacking Fundamentals
- Introduction to Artificial Intelligence(AI)

Interests

- Exploring new technologies in software development
- Reading technical articles and books
- Listening to music across genres
